Occupations

Open source Developer

[Portal Telemedicina, Florianópolis, Santa Catarina · Hybrid - 2022](#)

I have experience contributing to open source development using Vue 3 and Vite. Specifically, I've added support for multiple languages, allowing users to select their preferred language and continue to use it across sessions with local storage.

Backend Software Developer

[AgTrace, Florianópolis, Santa Catarina · Hybrid - 2022](#)

As a developer I was responsible for creating and maintaining server and client side functionality using technologies such as Java, MetaMask and VueJS. This included collaborating with front-end developers to integrate functionality with the server side and to contribute to the design and modeling of the web application. My experience with database management and API integration was invaluable in this role.

Lead Developer

[HERO99, Curitiba - 2018](#)

Improved availability using docker reverse proxy integrated into zero-downtime deployment CI workflow. Automation solution to aggregate different instant messengers (facebook, whatsapp and instagram) in real time.

contact@thomasgroch.xyz

Full Stack Freelancer PPH

[PeoplePerHour](#) - 2017

Consulting, analysis and management of UNIX servers.

Gerente de Projetos de TI

[LANGOWSKI](#), Curitiba - 2016

Planning, monitoring and control of the development team for proprietary CRM.

Analista de Sistemas

[tagbox](#), Curitiba - 2015

Proprietary Marketplace production in PHP/CodeIgniter. Some technologies used were Amazon AWS (EC2, AMIs, Elastic IPs, S3), Vagrant, cURL and XML Parser.

Analista de Sistemas

[RESERVA](#), Rio de Janeiro - 2014

API development for integration of Reserva e-commerce to the MercadoLibre sales portal and support to deal with the large scale of users.

Desenvolvedor Web

[Artexpressa](#), Rio de Janeiro - 2013

Development of web systems in PHP/MYSQL. Management system modeling and lecture scheduling. Implementation of digital certificate issuance.

Desenvolvedor PHP

[Arquitetura Abstrata](#), Rio de Janeiro - 2012

Development of a business incubator system. Implementation of project manager, people and companies. Development of the selection process of the enterprise. Adaptation of the corporate financial management module.

Analista de Dados

[Forpix](#), Rio de Janeiro - 2011

CMS system modeling, requirements gathering according to the need presented by the client. Provision of development services for intuitive experience.

Education

WordPress: Custom Post Types and Taxonomies

[Certificate of Completion Lynda Foundation Inc](#)

WordPress Developer: Information Architecture and the Template Hierarchy

thomasgroch.xyz

Certificate of Completion Lynda Foundation Inc

Bachelor's Degree in Internet Systems

Instituto Tecnológico SENAC RJ, Rio de Janeiro 2011

Complete High School

Colégio Wakigawa, Rio de Janeiro 2007

Computer Network Technology

Instituto Tecnológico SENAC RJ, Rio de Janeiro 2005

Objetivo

Perform senior quality developer activities:

SaaS platform health and infrastructure monitoring;

Analysis and generation of operational and business indicators;

Integrations between systems (synchronization, scheduling and process queue);

I will be very thorough so that we both have an excellent experience.
